

# LED T8 Type A

25-32W REPLACEMENT  
11-14 Watt LED

## OVERVIEW

Simply Conserve® LED T8 Type A Lamps are an ideal plug-and-play replacement for 32W fluorescent tubes—delivering up to 2200 lumens while consuming less than half the power. Designed for ease of installation, the lamp features a durable glass construction that fits directly into existing fixtures without the need for rewiring or ballast bypass. Compatible with most electronic instant-start and programmed rapid-start T8 ballasts, this retrofit solution offers fast upgrades with bright, reliable performance. Perfect for commercial, industrial, and utility applications looking to reduce energy use without replacing entire fixtures.

SIMPLY CONSERVE®

## FEATURES

- Plug-and-Play Installation**  
Installs quickly with no rewiring—fits directly into most linear fluorescent fixtures using existing electronic ballasts.
- Long Life, Low Maintenance**  
Rated for 50,000 hours of use, reducing the need for frequent replacements and lowering total cost of ownership.
- Smooth, Uniform Light Distribution**  
Specialized cover design ensures flicker-free lighting with no dark spots or visual glare.
- Durable Glass Construction**  
Provides excellent heat dissipation, structural strength, and a clean visual aesthetic.
- Reliable in a Range of Conditions**  
Suitable for enclosed fixtures and damp locations, with wide operating and storage temperature ranges (-4°F to 113°F operation; -40°F to 185°F storage).
- True-to-Life Color**  
High CRI (≥80) delivers accurate color rendering in offices, retail spaces, and other visual environments.
- Safe and Low Emissions**  
Contains no UV or IR radiation and meets RoHS, DLC, and UL listing standards.
